

The Belvoir Family Health Centers are moving!

The current Family Health Centers of Fairfax and Woodbridge will be relocating to new health clinics – one in Fairfax and one in Dumfries. Slated to open in early July 2012, these locations were chosen to provide patients the most convenient and efficient access to care.

Continuity of care and safety are paramount during this transition. Throughout this process, we are committed to minimizing any disruption of services while delivering the same high level of patient care and support.

Our goal is to continue providing safe, compassionate and quality care to YOU, our patients.
